One Good Miami Day Planner

Build one complete Miami day around one real center instead of collecting stops.

USE THIS WHEN

The whole day still feels vague and every option is starting to look equally important.

One Good Miami Day Planner

Use the row that sounds most like the day in front of you. The goal is not maximum coverage. It is a cleaner first decision.

CHOICE	USE IT WHEN...
Beach and water	Let the coast be the main event. Keep the support moves light.
Walk and eat	Choose one truly walkable district and let food support the walk.
Meal anchor	Let one strong lunch or dinner carry a shorter outing.
Visitor signal	Choose one clear version of Miami instead of a citywide sampler.

ONE RULE THAT SAVES THE PLAN

One main anchor plus one optional extra is enough for most good Miami days.

Before You Go

CHECK THESE FIRST

- ☐ Choose the day shape before choosing the exact place.
- ☐ Pick one center of gravity.
- ☐ Name one optional extra, not three.
- ☐ Set a leave-early cue before the day starts.
- ☐ Use the live site for the exact area and current conditions.

IF THE DAY SHIFTS

When weather, traffic, or energy shifts, shrink the day before you relocate the whole plan.

FAST EXIT CUE

If the optional part starts to feel like obligation, cut it before relocating the whole outing.

WRITE THE PLAN

Main anchor: _____

Optional extra: _____
